MM Docket 99-25

### **Comments of the United States Radio Listeners Association**

1. The United States Radio Listeners Association is filing these comments on behalf of over 200 million Americans who listen to the radio regularly. USRLA is a group of people who enjoy listening to the radio. We are not broadcasters, nor do we aspire to obtain low power FM licenses. In fact, we have no connections whatsoever to the radio broadcasting industry, except that we enjoy listening to the radio. USRLA believes that the three major categories of commenters who have thus far voiced their opinions in this proceeding, low power FM proponents, incumbent radio broadcasters, and the Commission, are each trying to further an agenda that is contrary to the best interests of the American people. In these comments USRLA will present a plan for the future of radio broadcasting that will be of tremendous benefit to not only these three parties, but to radio listeners as well.
